

Things to add:

↳ add to the list ✓

↳ add to top of the list ✓

↳ remove the last item ✓

↳ remove the first item on the list ✓

↳ remove a task by index ✓

↳ remove a task by it's name ✓

↳ move an item to the top of the list *

↳ move an item to the bottom of the list *

↳ move a task a step down in the list

↳ move a task up a step in the list

! ↳ a list of data that written to & reads from file

(so that the list becomes permanent)

errors I've encountered:

↳ not sorting the list after every input. ~~relatively~~ easy to change

↳ if I write a word or

anything else when prompted if I want to edit/add to a task

the task before displaying it

↳ later show the confirmation message

↳ just show the list

↳ the

↳ should show options for the list

display

↳ instead of yes/no

↳ message may be shown the options to choose from

I need to change because it's done by index not name

↳ should be task id? add a name
